SECURITY SEAL RANGE

We also supply customised seals & accessories

TROGAN CABLE SEAL

A high quality security seal that features an aluminium alloy body coupled with a robust galvanized steel wire cable, ensuring top-tier quality and enhanced security for your valuable assets.

MERLIN CABLE SEAL

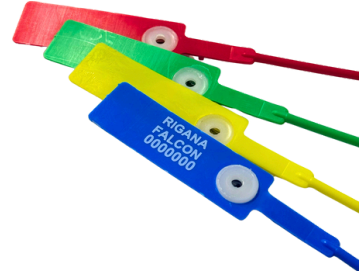

An elite security cable seal, expertly crafted from high-grade metal and fortified with a durable plastic coating for enhanced protection.

HAWK BOLT SEAL

Experience top-tier security with our robust bolt seal, manufactured from high carbon steel pin and bush. This high security seal is also known as a shipping container lock.

CONDOR PLASTIC SEAL

Expertly crafted pull tight security seal manufactured from high-quality polypropylene raw material to deliver optimal medium-security levels.

OSPREY SECURITY SEAL

A top-tier pull-through seal crafted from high-quality polypropylene, ideal for applications with low-security needs and suitable for small apertures.

FALCON METAL INSERT SEAL

Experience superior security with our Metal Insert Security Seal, featuring high-quality stainless steel sheet and a durable Polypropylene raw material socket.

GRIFFIN METAL INSERT SEAL

A high-quality pull-tight security seal crafted from durable polypropylene with a reinforced metal insert, this pull-through security seal offers reliable medium-security performance.

HERON PULL TIGHT SEAL

A pull-tight security seal, crafted from durable polypropylene, offering medium security levels with the added strength of metal inserts in the socket.
